Rehab Technical Education

To satisfy the Rehab Technical Education requirement, you must document *10 hours* of rehab industry repair technician training in the form of CECs, CEUs, or a combination of CECs and CUEs equaling 10 hours. *These CECs/CUEs must be earned within the prior 2 years and be unique from those submitted for DMERT Level 1 when submitting for DMERT Level 2.*

Education must be related to the provision of assistive technology to persons with disabilities.

Copy of attendance documentation displaying the following items must be submitted to DMERT Group with completed Rehab Technical Education form for each level of certification:

- Candidate Name
- Course Title
- Number of CEUs awarded must be indicated, otherwise course will be recorded as contact hours (CECs)
- Instructor/Sponsor Signature
- Course Date(s) and Length/Time

CEUs will be accepted from IACET-accredited providers, professional associations, academic institutions, and state licensing boards. All submissions will be reviewed for qualification by the DMERT Group.

CECs will be accepted from manufacturer provided in-services when education is presented by a content-authorized manufacturer representative, the education is provided in-person, without internet usage as the means of congregating (i.e. Zoom Meeting), and the educator provides documentation of the in-service topic/discussion, date, time length of in-service and educator name, including credentials. (i.e. Manufacturer sign-in sheet)
